ABOUT ME

Computer Engineering diploma student with a strong foundation in programming, web development, and problem-solving. Passionate about building modern web applications and exploring Artificial Intelligence and Machine Learning through hands-on projects. Experienced in developing full-stack applications using the MERN stack, creating responsive user interfaces, integrating APIs, and deploying applications.

EDUCATION

Government Polytechnic Mumbai | Expected Graduation: 2027

Diploma in Computer Engineering

Anjuman-I-Islam Allana English High School, CST | Completed: 2024

Secondary School Certificate (SSC)

PROJECTS

ZubSphere Portfolio

[GitHub Link](#)

Tech Stack: React, Tailwind CSS, Framer Motion

- Designed and developed a **modern personal portfolio website** with **responsive UI and smooth animations**.
- Built dedicated sections to showcase **projects, education, and skills** with an integrated contact form.
- Optimized site performance and layout for **cross-device responsiveness**.

WayPoint

[GitHub Link](#)

Tech Stack: MERN, Leaflet, OpenStreetMap API

- Built a **location-based application** featuring **interactive maps** and real-time location search.
- Integrated **OpenStreetMap and Leaflet APIs** to display detailed, accurate place information.
- Designed a **responsive, modern UI** for a seamless experience across devices.

ChitChat

[GitHub Link](#)

Tech Stack: MERN, Socket.IO, JWT

- Developed a **real-time chat application** using **Socket.IO** for instant messaging.
- Implemented **secure user authentication** with JWT for protected access.
- Built a **responsive interface** ensuring smooth communication across devices.

Imagify

[GitHub Link](#)

Tech Stack: MERN, AI API

- Built an **AI-powered image generation** web application with secure user authentication.
- Integrated **AI APIs** for real-time image generation and **cloud image storage**.
- Fully deployed** the application for public access.

SKILLS

Programming Languages: JavaScript, Python, Java, C, C++

Frontend: React.js, Tailwind CSS, Framer Motion, React Router

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel, Render

Soft Skills: Problem Solving, Team Collaboration, Adaptability, Analytical Thinking

ACHIEVEMENTS

- Consistently scored **above 87%** throughout diploma semesters.
- Developed **multiple full-stack web applications** independently.
- Explored **Machine Learning** through practical, hands-on projects.
- Active learner in **AI, Web Development, and Software Engineering**.
